FRANKLYN OKORIE

FRONT END DEVELOPER

Meet Franklyn, a proficient software developer specializing in the creation of responsive websites for both personal and business use. With a solid foundation in various programming languages and a keen eye for design, Franklyn excels in crafting digital experiences that are visually appealing, user-friendly, and optimized for all devices. His commitment to excellent work and his ability to blend aesthetics with functionality set him apart in the field of web development. Franklyn is not just a developer, but a creator of engaging and interactive digital experiences.

Experience

○ 2019 - 2022

IONS WORLD NIG ENT

Front end developer

In my role as a Front End Developer at Ions World Enterprise, I was instrumental in designing and implementing user-friendly interfaces for various web applications. My responsibilities included:

- Developing responsive designs to ensure optimal user experience across multiple devices.
- Collaborating with the back-end team to integrate application logic, ensuring seamless functionality.
- Utilizing my proficiency in HTML, CSS, and JavaScript to create visually appealing and intuitive web components.
- Conducting thorough debugging and maintaining code quality through rigorous testing.
- Working closely with the design team to translate design concepts into functional web elements.
- Continuously staying updated with industry trends and applying best practices in front end development.

This role allowed me to hone my technical skills while also enhancing my teamwork and problem-solving capabilities.
